Professional Summary

Full Stack Software Development student with 2+ years of industry experience as a Junior .NET Developer. Strong expertise in C#, .NET Core, React, RESTful API development, and SQL Server. Experienced in Agile/Scrum, CI/CD pipelines, cloud deployment, and scalable application design. Seeking entry-level Software Developer, Full-Stack Developer, or Backend Developer opportunities in Canada.Legally authorized to work in Canada.

Technical Skills

Languages:	C#, JavaScript, TypeScript, SQL, Python, Java
Frontend:	React, Angular, HTML5, CSS3
Backend:	.NET Core, ASP.NET MVC, Node.js, Express.js, Spring Boot
Databases:	SQL Server, MongoDB, Entity Framework, LINQ
APIs & Architecture:	RESTful APIs, MVC, OOP, SOLID Principles, Design Patterns, JWT Authentication
Cloud & DevOps:	AWS (EC2, S3, RDS), Azure, Docker, CI/CD, Git
Tools:	GitHub, Postman, Jira, Visual Studio, VS Code, Agile/Scrum, Unit Testing

Work Experience

The One Technologies | Junior .NET Developer Jan 2022 – Jun 2024 | India

- Developed enterprise web applications using C#, .NET Core, ASP.NET MVC, and SQL Server.
- Designed and deployed 15+ RESTful APIs supporting internal modules and third-party integrations.
- Optimized SQL queries and indexing strategies, improving application response time by 30%.
- Contributed to CI/CD pipelines and participated in Agile sprint cycles and code reviews.
- Applied SOLID principles and clean architecture to enhance scalability and maintainability.

Projects

ProductExp — Full-Stack E-Commerce Platform React, Node.js, MongoDB

- Built a full-stack e-commerce platform supporting 50+ test users with secure JWT-based authentication.
- Developed 12+ RESTful APIs for product, cart, and order management.
- Optimized MongoDB queries reducing data retrieval time by 25%.
- Implemented reusable React components improving frontend scalability and performance.

Cloud Cost Comparator React, Django, AWS (EC2, S3, RDS)

- Developed a cloud pricing comparison tool integrating 3+ external REST APIs.
- Deployed the application on AWS EC2 with S3 storage and RDS database integration.
- Improved API response efficiency by 30% through optimized data handling.
- Designed dynamic frontend components for interactive data visualization.

Achievements

- Maintained GPA of 3.72/4.0 while completing advanced coursework in Full Stack Development.
- Delivered 5+ production-level modules within Agile sprint deadlines.
- Demonstrated cloud integration and DevOps exposure through AWS deployments.
- Applied performance optimization techniques improving backend efficiency.

Education

Post-Graduate Certificate – Full Stack Software Development 2024 – 2026
Lambton College, Canada GPA: 3.72 / 4.0

B.Tech – Agriculture and Information Technology 2019 – 2022
AAU, India GPA: 3.0 / 4.0 (Converted)
